Re: Briar Green Condominiums

Dear Jim and Will,

As you finish the complete re-roofing of our entire complex, we just wanted to drop you this line to express our thanks and complete satisfaction for a job well done.

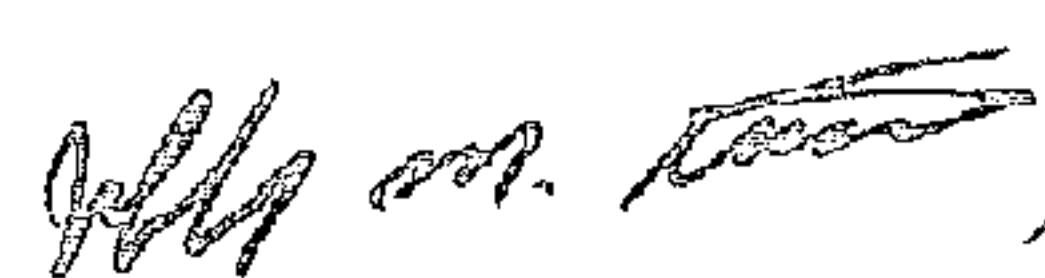

When Hurricane Ike damaged the roofs on all twenty of our buildings and affected most of the interiors of our 264 apartments, we needed a company with the skill and knowledge to not only make the repairs, but to work with our insurance company to obtain the maximum coverage. TMRCC stepped up, met with our insurance company's adjustors, submitted real-world estimates, re-submitted when necessary, and secured for our homeowners the maximum possible coverage, saving them enormous sums of money. Then, in spite of challenges with weather and an unfortunate loss of materials, TMRCC completed the roofing quickly and efficiently, and the new roofs are not only sound, but look terrific. Now that you are moving into the interior repairs, we have received glowing reports from our homeowners as to the quality of work.

TMRCC has our complete support and confidence moving forward, and you will be our primary contractor for any similar work in the future.

Should any other prospective client require a reference, or wish to speak to an existing customer, you have our permission to give our contact information, and we will be glad to recount our experience with TMRCC for them.

Thank you again for your continuing services, and we look forward to a long and satisfying working relationship with TMRCC.

Respectfully,

 , President

Jeffrey M. Rutledge
